AGENDA MEMORANDUM****SUBJECT:** Seminole County Planning and Development Department Fee Resolution**DEPARTMENT:** Fiscal Services **DIVISION:** Administration**AUTHORIZED BY:** Lisa H. Spriggs **CONTACT:** Lin Polk **EXT.** 7177

**Agenda Date** 12/9/03 **Regular** ☐ **Consent** ☒ **Work Session** ☐ **Briefing** ☐  
**Public Hearing – 1:30** ☐ **Public Hearing – 7:00** ☐

**MOTION/RECOMMENDATION:**

Approval and authorization for the Chairman to execute the Seminole County Planning and Development Department Fee Resolution.

**BACKGROUND:**

The Department of Planning and Development has reviewed the efficiency and accuracy of its current fee schedule in rendering building and inspection fee services to the public.

Relative to the services provided in administering the fee schedule, the Planning and Development Department assessed costs necessary for operational processes, including staff time, materials purchased by the public and specific equipment used in servicing the public. The fees are comparable to other local governmental agencies, reviewing specific services provided, frequency of fee analysis, and jurisdictional customer service base.

As a result of staff's research and analysis, the Planning and Development Department proposes to reorganize categories of building and inspection fees and related administrative charges and implement appropriate building and inspection fees for services provided, thereby amending the current Fee Resolution 2002-R-181.

# ECONOMIC IMPACT STATEMENT

DATE: December 2003      DEPT./DIVISION: Planning and Development

CONTACT PERSON: Kent Cichon      EXTENSION: #7126

## DESCRIBE PROJECT/PROPOSAL:

Revision of Fee Resolution for Seminole County's Department of Planning and Development to restate and reorganize categories of building and inspection fees and related administrative charges and implement appropriate building and inspection fees for services provided to the public.

## DESCRIBE THE DIRECT ECONOMIC IMPACT OF THE PROJECT/PROPOSAL UPON THE OPERATION OF THE COUNTY:

The proposals of the Fee Resolution will have a positive economic impact upon the operation of the County. Updating the categories of fees increases the effectiveness of the fee structure. The proposal is relatively revenue neutral, increasing revenues an estimated \$41,600, less than 1% of development review receipts. Fee increases are reflective of costs incurred by the County to provide the designated service. See attached worksheet of estimated revenues for revised fee schedule.

## DESCRIBE THE DIRECT ECONOMIC IMPACT OF THE PROJECT/PROPOSAL UPON THE PROPERTY OWNERS/TAX PAYERS/CITIZENS WHO ARE EXPECTED TO BE AFFECTED:

Restructuring the fee schedule will impact affected citizens. An increase in fees for infrequently requested services (haunted house inspections, street name change, special event permits) is proposed. Also, other fees are increased as a result of the labor costs involved in providing certain services (Board of Adjustment variance applications, site inspections and certification letters, lot buildability letters, process minor plats). Decreases in fees are proposed for the updating of building permits and the copying of plans.

## IDENTIFY ANY POTENTIAL INDIRECT ECONOMIC IMPACTS, POSITIVE OR NEGATIVE WHICH MIGHT OCCUR AS A RESULT OF THE PROJECT PROPOSAL:

The proposal provides a long-term positive impact through the continuous analysis of operational efficiency as it relates to services provided and costs incurred by the public. As an effective tool, the fee schedule can assess the workload capacity of the Department to maintain a level of excellence in service as well as the accuracy of fees charged to the public.
